SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS
- **Frontend:** React, Next.js, Tailwind CSS
- **Libraries:** Zustand, React Query, Framer Motion, Three.js
- **Testing & Tools:** React Testing Library, ESLint, Git/GitHub, DCO sign-off
- **Platforms:** Linux, Windows

EXPERIENCE

- **PRED (PangoLabs)** Bangalore
SDE Intern: React, Zustand, Tailwind CSS, React Query Nov 2025 – Mar 2026
 - **UI Implementation:** Converted **Figma designs** into reusable, responsive **React** components with a focus on consistency, maintainability, and production-ready UI.
 - **Frontend Engineering:** Built a high-performance **React + Vite** frontend using **Tailwind CSS** and **Zustand** for predictable global and local state management.
 - **Data & APIs:** Integrated frontend components with backend services using **React Query**, implementing cached data fetching, loading states, and resilient API-driven UI.
- **RemoteStar** Remote
SDE Intern: Next.js, TypeScript, Framer Motion, Tailwind CSS Mar 2025 – Nov 2025
 - **Frontend Development:** Developed the frontend of an **AI-powered online interview platform** using **Next.js**, **TypeScript**, **Tailwind CSS**, and **Framer Motion**.
 - **UI/UX Implementation:** Designed and implemented responsive interfaces focused on usability, consistency, and smooth user interactions.
 - **API Integration:** Connected frontend components with backend services, maintaining clean **API communication** and reliable data flow.

OPEN SOURCE CONTRIBUTIONS

- **Headlamp (CNCF, [kubernetes-sigs/headlamp](https://github.com/kubernetes-sigs/headlamp)):**
 - Shipped **10+ contributions** to the Kubernetes web UI, working across CRD list components, the resource-map relations graph, router internals, units helpers, resource-table identity, API-discovery logging, and the story-test layer.
 - Worked within an existing **TypeScript/React** codebase using **React Testing Library** and ESLint, contributing changes across UI, application logic, and testing infrastructure.

SELECTED PROJECTS

- **CompilerTech – Official Website Deployment:**
 - Built and deployed the official CompilerTech website as a freelance frontend developer, delivering a responsive, high-performance interface with clean **UI/UX** and smooth interactions.
 - Focused on accessibility, responsive behavior, and consistent performance across mobile and desktop.
 - Tech: **Next.js, TypeScript, Tailwind CSS, Framer Motion**
- **Segfault – Official Hackathon Website Deployment:**
 - Developed and deployed the official Segfault Hackathon website with a dynamic, responsive frontend and smooth **Framer Motion** interactions.
 - Implemented event details, timeline, and submission sections with a scalable, component-based interface.
 - Tech: **Next.js, TypeScript, Tailwind CSS**

VOLUNTEERING

- **PointBlank (Coding Club)** Member
Frontend Developer: Next.js, TypeScript, Framer Motion, Tailwind CSS, Cloudinary Feb 2025 – Present
 - **Reusable UI:** Designed and implemented a reusable **Framer Motion**-based loader used across the website.
 - **Page Development:** Built the entire [/lore](#) page from UI/UX design through responsive frontend implementation using **Next.js** and **Tailwind CSS**.
 - **Form Development:** Designed and developed the PBCTF registration page, including form logic, UI, and frontend implementation.

ACHIEVEMENTS

- **Technical Escape Room (CTF):** Secured **1st place** among 35 teams in a competitive, time-bound Capture The Flag challenge – March 2025.
- **NER Tech Hackathon:** Selected as a **Finalist** in a national-level hackathon organized by **Amantya Technologies**.
- **Aventus Hackathon:** Selected as a **Finalist** in a hackathon organized by **Dayananda Sagar College of Engineering**.

EDUCATION

- **Dayananda Sagar College of Engineering, Bangalore** Karnataka, India
Bachelor of Engineering - Computer Science and Engineering; CGPA: 7.65 Nov 2023 – Present
